MOUNT VERNON.

ph S. Wood, one of the representatives of the Board of Trade of Mount Vernon appointed to discuss in joint debate the question of annexation, has written a preliminary paper in which he discusses these points: Water supply, lower taxes, fire insurance and gas. He declares that New-York has present area only of forty square miles, while ladelphia has 109 square miles. London 122 square Mount Vernon is nearer the City Hall in minutes than Harlem was twenty years ago. As to water, the maintains that the present supely will not be he maintains that the present supply will not be sufficient a few years hence, and an increase can be obtained only by annexation to New-York City. The water taxes would also be less, he says, and to substantiate this he avers that the water tax in New-York City is only \$\overline{x}\$ a year, as against \$15 a year in Mount Vernon. The rate of real estate taxation would also be less, Mr. Wood says, and he proceeds to show it by figures obtained from the tax office and real estate transfers. Lower fire insurance rates would also follow, to prove which he says that the rate in Fordham, Bedford Park and other places in the upper part of New-York City is 30 cents on each \$100 of value for a three years policy, and 60 cents per \$100 on property in Mount Vernon. This, he declares, is due to the fact that other places have a juid fire department, while a volunteer fire department prevails here. In the matter of gas, he maintains, that by annexation,

The annual school meeting, which was held in the Town Hall on Tuesday evening, was the live-liest held at this place in years. The earlier part the adoption of the budget, which favored an in-crease in the school expenses of \$7,000 over that of former years. After this was approved the elec-tion for school trustees began. There were four candidates in the field, James H. Moran, J. Henry Parker. The two former were candidates for re-election. Mr. Stafford is a local druggist, and Mr. Parker the State Councillor of the Junior Order of American Mechanics. It was alleged that Mr. Parker and Mr. Carpenter had joined issues to defeat Mr. Moran. The latter accused Mr. Carpenter of this, but it was denied. As Mr. Moran his former partner and joined issues with Mr. Stafford, Three hundred votes were polled one hundred votes were polled. One hundred voters withdrew without voting because of the crowded state of the polling-place. When the ballots were counted it was found that Mr. Stafford received 12% votes, Mr. Moran 156, Mr. Carpenter III and Mr. Parker 73. A number of persons attempted to create a feeling over the election, alleging that members of the Junior Order of American Mechanics were fighting Mr. Moran because of his relicious opinions. The real cause of the exciting canvass was, it is alleged, that several candidates are anxious to be appointed collector by the Board of Education. Whatever the cause, the meeting was the most spirited held in this village in years. Before the meeting adjourned a committed was appointed to confer with the Board of Education and report on Thursday evening next in Lafavette Hall whether it is best to spend \$25,000 in putting an addition to the present school building, or to erect a new modern schoolhouse. The attendance at the school has been so large the last year that the present building is considered inadequate by the Board.

At a meeting held at Fairmount Hall, Jersey City
Heights, last night, it was decided to hold an indignation meeting in relation to the condition of
the Passaic water, and G. M. B. Mudge, the chairman, was authorized to name a committee to make
the arrangements. This he will do to-day.

RUTHERFORD.

Assessor Charles Planer has just completed his assessment of Rutherford for 1894. He puts the value of real and personal property in Rutherford at \$1,353,660, of which \$1,283,185 is taxable. Rebates amount to \$69.875, and non-assessable property to

amount to 30.8.0. and non-assessance property to \$59.550. The increase in valuation over 1883 is about \$50.000. The assessor's figures give 817 polls, indicating a considerable increase in the vote over this spring.

At a meeting of the Lincoin League of East Rutherford, on Tuesday night, twelve new members were elected, many of them former Democrats. The leagues of Rutherford and East Rutherford and exact Rutherford and exac

PATERSON.

The convicted Anarchists who led the memorable riots of the silk-workers in March and April last at Paterson, and who were convicted for assaulting workmen, throwing bombs and writing threatening letters, were sentenced yesterday morning by Judge Hopper, in the Court of Quarter Sessions. Charles Doebbler, convicted of placing a dynamite bomb on the lawn of the house of William Strange, a manufacturer in April, and writing threatening letters

NEWS FROM THE SUBURBS to Mr. Strange and Jacob Weldman, was mentenced to five years in State Prison for bomb throwing, and six months for writing the letters. Robert Seldel, his companion in the letter-writing business. Was sent to State Prison for one year, Charles Starke, August Honte, Victor Glass, Herman Fishbecker and Hugo Schilling were each sentenced to one year in State Prison for assaulting workmen and rioting. Andrew Hobler was sentenced to three months in the County Jail for rioting.

FIIZABETH

A charge of brutal clubbing was made yesterday by Patrick Devanny, of this city, against Police-man Joseph C. Smith, and a suit against the latter County Circuit Court, and the papers in the case were placed in the hands of Sheriff Kyte, who will on Sunday night he found a gang of hoodlums conditions of the consolida- sitting on his stoop, making a noise, and ordered them away. They refused to go, and then he was about to throw a pail of water on them when the policeman came along and told him to go in his nouse of heat 'pail him in." Mr. Devanny would not leave his stoop, declaring the officer had no right to interfere with him on his own property, whereapon the policeman rushed at him, clubbed him about the head and face, and dragged him to the police station, where he was thrown into a cell and hearly hield to death, he alleges, before his cries for help were heard by the Janitor, who summoned a dector to dress his wounds. Officer Smith entered a charge of 'drunk and disorderly' against the prisoner, but when Devanny was arranged in the police court the next morning the officer was not on hand to substantiate his complaint, and Justice Neill, after hearing the prisoner's version of the affair, promptly discharged him.

At the park the guests will be shown to a platform beside the monument, which is on the east
side of the park, near the Essex Club's house, and
in sight from the Frelinghuysen residence. After
music by Voss's bank a prayer will be made. President William A Ure, of the Board of Trade, will introduce Ambassador Runyon, who will deliver the
oration. He will also unveil the statue and present
it to Mayor Lebkuecher, who will receive it on
behalf of the city.

HE SAYS REMORSE IS KILLING HIM.

TO PRISON THE DOY WAS DROWNED

ling down his cheeks, was one of the callers at the Morgue vesterlay morning. He was Thomas O Donahue, seventy years old, of No. 33 Washing-Blackwell's Island on Monday.
"Oh, sir," he said to a reporter, "It was a great

mistake for me to make, and my heart is almost broken. But, then, I was so mad at him."

Here the old man began to weep afresh. When asked to relate the mistake that caused him such

Why, sir, he could write splendidly and draw pictures just like one of these artists. When he was check clerk for the Pennsylvania Railroad on Pier I he was a good boy, but when he lost his job he took to drinking, and then he would come to me and ask me to give him money. He would say he was hungry, but he would take the money to leny search.

was hungry, but he would take the money to buy drink.

When I found this out I was so terrible mad that I went to Judge Martin and had him sent up to the Island for six months. I was so mad that I dun't know what I was doing, sir.

One day after my boy had been up there two months he wrote me a letter beaging me to get him off. Father, he arote, you wouldn't have a dog kept here if you knew everything.

I never answered the letter. I was so mad at him that I thought I would teach him a lesson, oh, sir, he must have been disappointed terribly. It makes me cry when I think how he must have waited and wondered at me. I was always good to my boy and I know he loved me.

Well, sir, when he dain't hear from me he resolved to swim over from the Island to the city. He jumed into the river and began to swim away from the shore. Then he sank and was drowned. I tell you my remorse is killing me. I have been to the Brooklyn Morgue and to the Long Island Morgue, and have come here. But they have not found his body. I would give the world now had I answered my boy's letter. had I answered my boy's letter"

A TEIAL TO ENGINEERS.

From The St. Louis Globe-Democrat.

Prom The St. Louis Globe-Democrat.

"This intensely hot weather and glaring sun reminds are of the great difficulties a locomotive engineer has to encounter when the sun is strong enough to cause a vivid reflection," said Walter Jordan, who was for several years a locomotive engineer, and who abandoned the lever and throttle on account of falling eyesisht.

"I often hear people enlarge upon the difficulties of driving a locomotive in the dark or during heavy rain, but for my part, nothing ever gave me greater anxiety than continuous sunshine. Co or bindness is frequently nothing more than intense pain in the eyes caused by watching objects which reflect the light, and upon which the sun is shining.

"In a run of several hours the glare from the rails which strikes the eyes which watching for track obstructions, and more particularly for rails which have been forced out of line by the heat, is very trying, and often when I have left the locomotive after such a run I have found the greatest comfort in resting in a room where Egyptian darkness prevailed.

"A man is afraid to wear smoked glasses lest he should be suspected of color blindness and lose his position. But some protection of this kind would
